

Tell us about the Professional Development or Academic Preparation that you receive as a Youth Worker!

AYS Inc. through the Journey, has contracted the Recreation Development Network (RDN) to map the academic preparation and professional development opportunities for Indiana youth workers. This exciting project launched September 1 and we would love to hear from all of the Indiana YouthPRO members.

We intend to create a “map” of all the existing academic and professional development opportunities available to people in or entering the field of youth development. We would greatly appreciate any information that you can share regarding opportunities for academic preparation or professional development education for Indiana youth workers.

You can send brochures, web site links, etc. Please help us add to the map by emailing any information to Nathan Schaumleffel, CEO of Recreation Development Network at nschaumleffel@recreationdevelopmentnetwork.com. Thanks for your help!
